Subject: Letter regarding INC Resolution to Oppose I-70 expansion

Date: Thu, Nov 16, 2017 8:41 am

Attachments: INC_Letter_I-70_Project_Opposition.pdf (522K)

November 16th, 2017

Dear Governor Hickenlooper, Mayor Hancock, and Members of Denver City Council:

The Inter-Neighborhood Cooperation (INC) met on Saturday, September 9, 2017 and held a public forum to facilitate discourse on CDOT's planned expansion of I-70 through the neighborhoods of Elyria and Swansea, and the City of Denver's related Platte to Park Hill Storm Water Project. INC voting delegates passed the following Resolution by an overwhelming majority:

INC neighborhoods oppose the proposed expansion of I-70 because it increases the health impacts on our neighborhoods and we call on Governor Hickenlooper and Mayor Hancock to halt the project until all health impacts have been eliminated.

We respectfully request that all of our elected representatives halt the expansion project until the objectionable risks to the community are eliminated. A project of this magnitude will be helped by not rushing and allowing more public risk mitigation.

Respectfully,
