To: Executive Director Allegra Haynes Parks and Recreation

To: Executive Director Eulois Cleckley Public Works

Re: Cement In Parks

Dear Ms Haynes and Mr Cleckley,

INC PARC remains concerned about the amount of cement used in our parks and reminds that there are several methods that can be used which are permeable and durable.

Several of our committee members have reported a seeming disconnect between Public Works and Parks and Recs when planning sidewalks within our parks. To overcome this perception we suggest that representatives of Public Works and Parks and Recs be present at all community outreach meetings to answer questions regarding the placement and materials of sidewalks.

Best Regards,

Cindy Johnstone

Maggie Price
