Re: Greater & Greener 2019

Dear Mayor Hancock,

As Co Chairs of the INC Parks and Recreation Committee we are pleased that Denver will be showcased next July during the Greater & Greener 2019 International Urban Park Conference presented by City Parks Alliance. We have had an opportunity to spend some time reviewing the 2017 Conference and are impressed with the themes planned for next year's conference.

We would appreciate an opportunity to be included as advocates for urban parks at the grassroots level in breakout sessions that are focused on working with the communities. We are hoping you can direct us to the correct contacts in the City Parks Alliance and that you will support us in this request. Our experience of being park advocates includes each of us spending more than 16 years working with you and the Hickenlooper administration, serving on various committees and boards and understanding that Denver Parks is a system serving the neighborhood communities and the City.

Sincerely,

Cindy Johnstone
