01:07:42 Robert Lorenz Inspiration Point: Fujitsu Heat Exchanger
installed by George Chacon, our neighborhood heating and air conditioning man.
01:10:41 Adam Meltzer_Wash Park East: @Robert - Are you talking about a
heat pump or a heat exchanger for geothermal? I wasn't aware that we had access to
geothermal in Denver.

electric and connected to a large device on the north side of our home that cools
our sun room n the summer and heats it in the winter. It is not geothermal.

hoping you address this
01:37:11 Robert Lorenz Inspiration Point: Pumpkin and Zucchini leaves
often become moldy by late summer. If composted these leaves may spread the mold.
How does the city deal with leaf mold in the compost?
01:40:04 Mark Orrs, Hampden Heights: This is my favorite policy to brag

about!

01:41:18 Mark Orrs, Hampden Heights: (our recycling rate is my most embarrassing thing to admit)
